Indian Standard

SPECIFICATION FOR MANUALLY OPERATED MILK CAN WASHER

(First Revision)

1 SCOPE

1.1 This standard prescribes the important constructional details for a pedal-operated milk can washer which could handle one can at a time.

FOREWORD

0.1 This Indian Standard was adopted by the Indian Standards Institution on 23 April 1963, after the draft finalized by the Dairy Industry Sectional Committee had been approved by the Agricultural and Food Products Division Council.

0.2 Small dairy plants or collecting centres not equipped with mechanical power operated can washer employ manual washing method, handling can at a time. This standard prescribes the important constructional details of two typical designs of manually operated milk can washer. The milk can washer could handle any of the milk cans covered by*IS : 1373-1962 Specification for Tinned Mild Steel Milk Cans (*Revised*) and* IS : 1825-1961 Specification for Aluminium Milk Cans. The washer could handle a maximum of 40 cans per hour. Steam and water at a pressure of 0.5 to 1.0 kg/cm² are required for operating the can washer.

*Since revised.
