Indian Standard

CODE OF PRACTICE FOR EXTERNAL RENDERED FINISHES

1. SCOPE

1.1 This standard covers the application of external rendered finishes for all normal types of backgrounds. It also specifies the materials to be used for renderings and the minimum preparation of background for application of finish.

1.2 It does not cover plain plaster finishes required for internal walls and ceilings, which are dealt with in a separate standard, namely, IS : 1661-1960 Code of Practice for Cement and Cement-Lime Plaster Finishes on Walls and Ceilings.
