Indian Standard
SPECIFICATION FOR
CHEESE HOOPS

0. FOREWORD

0.1 This Indian Standard was adopted by the Indian Standards Institution on 27 September 1963, after the draft finalized by the Dairy Industry Sectional Committee had been approved by the Agricultural and Food Products Division Council.

0.2 The cheese hoop is used for moulding the curd and to hold it while it is being pressed in the vertical cheese press.

0.3 Wherever a reference to any Indian Standard appears in this specification, it shall be taken as a reference to the latest version of the standard.

0.4 Metric system has been adopted in India and all quantities and dimensions in this standard have been given in this system.

0.5 For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test or analysis, shall be rounded off in accordance with IS : 2-1960 Rules for Rounding Off Numerical Values (*Revised*). The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

0.6 This standard is intended chiefly to cover the technical provisions relating to cheese hoops, and it does not include all the necessary provisions of a contract.

1. SCOPE

1.1 This standard prescribes the requirements for cheese hoops for handling 10 and 20 kg of cheese respectively.
