*Indian Standard*

**SPECIFICATION FOR  
GALVANIZED MILD STEEL FIRE BUCKET**

*(First Revision)*

**FOREWORD**

**0.1** This Indian Standard (First Revision) was adopted by the Indian Standards Institution on 15 March 1974 after the draft finalized by the Fire Fighting Sectional Committee had been approved by the Civil Engineering Division Council.

**0.2** As one of the important items of first-aid fire fighting equipment fire buckets have to conform to certain essential requirements in regard to shape, design, construction and finish. This standard has been prepared with a view to providing guidance both in manufacture and purchase of galvanized mild steel fire bucket of proper design and construction. This standard was published in the year 1963. This first revision has been prepared to incorporate the revised design of bucket as recommended by Ordnance Factory, Dum Dum.

**0.3** This edition 2.2 incorporates Amendment No.1 (September 1981) and Amendment No.2 (February 2001). Side bar indicates modification of the text as the result of incorporation of the amendments.

**0.4** For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test or analysis, shall be rounded off in accordance with IS : 2-1960\*. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

**1. SCOPE**

**1.1** This standard lays down the requirements regarding material, dimensions, manufacture, finish and tests of galvanized mild steel fire bucket of 10 litres nominal capacity

---

\*Rules for rounding off numerical values (*revised*)
