## *Indian Standard*

# **SPECIFICATION FOR MUTTON AND GOAT MEAT, CURRIED AND CANNED**

### **FOREWORD**

**0.1** This Indian Standard (First Revision) was adopted by the Indian Standards Institution on 26 July 1973, after the draft finalized by the Meat and Meat Products Sectional Committee had been approved by the Agricultural and Food Products Division Council.

**0.2** This standard was first published in 1965. This revision incorporates a number of important modifications, namely, (a) vacuum requirements of the 'can have been decreased; (b) requirement of head space has been deleted; (c) the range of total fat content has been widened and subjected to the agreement between supplier and purchaser; (d) maximum limit for copper has been lowered, while the limits of zinc and tin have been relaxed; and (e) reference to latest Indian Standard methods of test, based on ISO recommendations have been provided.

**0.3** In the preparation of this standard, due consideration has been given to the Prevention of Food Adulteration Act, 1954, and the Rules framed thereunder. However, this standard is subject to the restrictions imposed under this Act, wherever applicable..

**0.4** This standard contains clauses [3.3, 4.1.2 and 4.2, and Item (ii) in Table 1] which call for and agreement between the purchaser and the supplier at the time of placing orders.

**0.5** For the purpose of deciding, whether a particular requirement of this standard is complied with, the final, observed or calculated expressing the result of a test or analysis, shall be rounded off in accordance with IS : 2-1960\*. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

### **1. SCOPE**

**1.1** This standard prescribes the requirements and the methods of test for mutton and goat meat, curried and canned.
