Indian Standard
**SPECIFICATION FOR
ZINEB, TECHNICAL**

FOREWORD

0.1 This Indian Standard (First Revision) was adopted by the Indian Standards Institution on 28 July 1981, after the draft finalized by the Pest Control Sectional Committee had been approved by the Agricultural and Food Products Division Council and the Chemical Division Council.

0.2 This standard was first published in 1966. It has been revised to upgrade the purity of zineb content and to incorporate additional requirements for zinc content. Besides an opportunity has been taken to give reference to test methods prescribed in IS: 6940-1973* for the sake of uniformity.

0.3 Zineb, technical, is employed for the preparation of formulations, which are used for the control of fungus and bacterial diseases of plants.

1. SCOPE

1.1 This Standard prescribes the requirements and the methods of sampling and test for zineb, technical.
