Indian Standard
**CODE OF PRACTICE FOR
ANCILLARY STRUCTURES
IN SEWERAGE SYSTEM**
PART 1 MANHOLES

1. SCOPE

1.1 This standard covers types of manholes, design considerations for manholes and their construction and safety requirements.

1.2 This standard applies to manholes built for public sewers and does not cover manholes built specifically for building drainage (*see* IS : 1742-1983†).

†Code of practice for building drainage (*second revision*).
