

Indian Standard
SPECIFICATION FOR
RETRACTORS, SKIN, DOUBLE ENDED

0. FOREWORD

0.1 This Indian Standard was adopted by the Indian Standards Institution on 31 August 1967, after the draft finalized by the Surgical Instruments Sectional Committee had been approved by the Consumer Products Division Council.

0.2 The formulation of Indian Standards on surgical instruments has been taken up on the recommendations of the Advisory Committee for the Development of Medical Instruments, Equipment and Appliances, of the Government of India.

0.3 This standard is one of a series on surgical instruments. Other standards published so far in the series appear on P 6.

0.4 For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test, shall be rounded off in accordance with IS: 2-1960*. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

1. SCOPE

1.1 This standard lays down the requirements for double ended skin retractors.
