	Indigenous standard or Adopted standard	
6.	Need for the Revision (in case of revision)	
7.	The substance and the advantages or impact	Toe caps are necessary components of
	of the new standard or revision	safety and protective footwear and they
	The control of the second surface and the second substitution and the second surface of the second surface and the	provide protection to the wearer agains
		accidents that might occur at work or
		during day to day activities.
	v.	daring day to day activities.
		Since design of toe caps has undergone
		changes in the recent years and
		currently both metallic and non-metallic
		toe caps are commercially available, the
		Footwear Sectional Committee, CHD
	*	19, decided to align the standard in view
		of developments in this field. Thus, both
		metallic and non-metallic toe caps have
		been included and the original standard
		has now been split into two parts. This
	8	part deals with non-metallic toe caps
		while Part 1 deals with metallic toe
	7	caps.
8.	Details of current or prospective users of the	Prospective Stakeholders:
