Indian Standard

**GUIDE FOR
SENSORY EVALUATION OF FOODS**

PART I OPTIMUM REQUIREMENTS

1. SCOPE

1.1 This standard (Part I) covers optimum requirements of sensory evaluation of food, such as personnel, panel selection, laboratory set-up and equipment, sampling, and preparation and presentation of samples.

1.2 In places, where it is not possible to have all these arrangements, a set up may be evolved, keeping in view all the principles stated in this standard.
