Indian Standard
TEST CODE FOR CHAFF CUTTER

FOREWORD

0.1 This Indian Standard was adopted by the Indian Standards Institution on 28 November 1975, after the draft finalized by the Agricultural Product Processing Equipment Sectional Committee had been approved by the Agricultural and Food Products Division Council.

0.2 Chaff cutters are being extensively manufactured and used in the country for cutting the fodder. This test code has been evolved to serve as a guide for evaluating objectively the performance and constructional durability of chaff cutters. This code is intended to help the manufacturers to develop and various purchasing agencies to select the suitable chaff cutter to meet their requirement.

0.3 This edition 1.1 incorporates Amendment No. 1 (August 1981). Side bar indicates modification of the text as the result of incorporation of the amendment.

0.4 In reporting the results of a test or analysis made in accordance with this standard, if the final value, observed or calculated, is to be rounded off, it shall be done in accordance with IS : 2-1960*.

1. SCOPE

1.1 This code prescribes method of testing for chaff cutter to evaluate its performance and durability.

*Rules for founding off numerical values (*revised*)
