***Indian Standard***  
**SPECIFICATION FOR HORN RINGS FOR AUTOMOBILES**

**1. SCOPE**

**1.1** This standard covers horn control switches of 2, 5 and 10A rating in the form of a circular ring ( concentric with the steering wheel ) and deals with their electrical and mechanical requirements and methods of tests.

NOTE — When a flasher switch is combined with the horn ring to make horn and flasher control assembly, the flasher switch portion shall conform to IS . 4815-1968\*.
