Indian Standard

CHILLIES — DETERMINATION OF SCOVILLE INDEX

(First Revision)

1 Scope

This International Standard specifies a method for the determination of the Scoville index of chillies, whole or ground, unadulterated by other spices or products.

NOTE 1 Chillies commonly tested for their pungency are those of the species *Capsicum frutescens* Linnaeus.

2 Normative references

The following standards contain provisions which, through reference in this text, constitute provisions of this International Standard. At the time of publication, the editions indicated were valid. All standards are subject to revision, and parties to agreements based on this International Standard are encouraged to investigate the possibility of applying the most recent editions of the standards indicated below. Members of IEC and ISO maintain registers of currently valid International Standards.

ISO 2825 : 1981, *Spices and condiments—Preparation of a ground sample for analysis.*

ISO 3696 : 1987, *Water for analytical laboratory use—Specification and test methods.*

ISO 3792 : 1991, *Sensory analysis—Methodology—Method of investigating sensitivity of taste.*

ISO 6658 : 1985, *Sensory analysis—Methodology—General guidance.*

ISO 8586-1 : 1993, *Sensory analysis—General guidance for the selection, training and monitoring of assessors—Part 1: Selected assessors.*
