Indian Standard
SPECIFICATION FOR
LIQUID AMINE SALTS OF MCPA

FOREWORD

0.1 This Indian Standard was adopted by the Indian Standards Institution on 31 December 1976, after the draft finalized by the Pest Control Sectional Committee had been approved by the Agricultural and Food Products Division Council and the Chemical Division Council.

0.2 Formulations of amine salts of 4-chloro-2-methylphenoxy acetic acid (MCPA) are used extensively in the control of weeds- in cereal crops, grassland and turf.

0.3 In the preparation of this standard, due consideration has been given to the provisions of the Insecticides Act, 1968 and the Rules framed thereunder. However, this standard is subject to the restrictions imposed under these, wherever applicable.

0.4 For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test or analysis, shall be rounded off in accordance with IS : 2-1960*. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

1. SCOPE

1.1 This standard prescribes the requirements and the methods of sampling and test for liquid amine salts of 4-chloro-2-methylphenoxy acetic acid (MCPA).

*Rules for rounding off numerical values (*revised*).
