Indian Standard
SPECIFICATION FOR
EDIBLE SUNFLOWER SEED FLOUR
(SOLVENT EXTRACTED)

FOREWORD

0.1 This Indian Standard was adopted by the Indian Standards Institution on 28 December 1977, after the draft finalized by the Nutrition Sectional Committee had been approved by the Agricultural and Food Products Division Council.

0.2 With greater emphasis on exploitation of protein sources it has been felt that sunflower could be utilized as a good source of protein. This standard is intended to help the manufacturers of low fat sunflower seed flour in optimizing their production as well as the users of such flour in utilizing the right quality of sunflower protein for the manufacture of processed foods, such as baked goods, snacks and sweetmeats.

0.3 In the preparation of this standard, due consideration has been given to the provisions of the Solvent Extracted Oil, De-oiled Meal and Edible Flour (Control) Order, 1967; the Prevention of Food Adulteration Act, 1954 and the Rules framed thereunder. However, this standard is subject to the restrictions imposed under these, where applicable.

0.4 For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test or analysis, shall be rounded off in accordance with IS. 2 -1960*. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

1. SCOPE

1.1 This standard prescribes the requirements and the methods of sampling and test for edible sunflower seed flour (solvent extracted).
