Indian Standard

SPECIFICATION FOR CHLORMEQUAT CHLORIDE, TECHNICAL

1. SCOPE

1.1 This standard prescribes the requirements and the methods of sampling and test for chlormequat chloride, technical.

FOREWORD

0.1 This Indian Standard was adopted by the Indian Standards Institution on 30 October 1978, after the draft finalized by the Pest Control Sectional Committee had been approved by the Agricultural and Food Products Division Council and the Chemical Division Council.

0.2 Chlormequat chloride is a plant growth regulant which usually induces retardation of shoot elongation and vegetative growth in most of the plants. It has been used in agriculture for increasing yields and improvement in quality in various crops.
