Indian Standard

**SPECIFICATION FOR BLOWER
AND EXHAUSTER FOR FIRE FIGHTING**

FOREWORD

0.1 This Indian Standard (Second Revision) was adopted by the Indian Standards Institution on 29 June 1985, after the draft finalized by the Fire Fighting Sectional Committee had been approved by the Civil Engineering Division Council.

0.2 The purpose of blower and exhauster is to provide the supply of fresh clean air to firemen who may be working in unventilated places or to exhaust accumulation of foul air, fumes and smoke from storage tanks, ships' holds, godowns, living rooms and the like.

1. SCOPE

1.1 This standard lays down the requirements regarding material, construction and performance of blower and exhauster used for fire fighting.
