# *Indian Standard*

## **GLOSSARY OF TERMS RELATING TO HARVESTING AND THRESHING EQUIPMENT**

### **1. SCOPE**

**1.1** This standard covers the definition of various terms used in relation to harvesting and threshing equipment.

### **FOREWORD**

**0.1** This Indian Standard was adopted by the Indian Standards Institution on 29 May 1981, after the draft finalized by the Harvesting, Threshing and Transport Equipment Sectional Committee had been approved by the Agricultural and Food Products Division Council.

**0.2** With the increasing usage of harvesting and threshing equipment, a large number of such equipment are being manufactured and new equipment are being designed, developed and modified in the country. A need has, therefore, been felt for a comprehensive glossary which would provide authentic definition of the various terms associated with these equipment. It is hoped that this standard would fulfil this need. The terms associated with combine-harvester-thresher have been covered in IS : 8122 ( Part I )-1976\*.
