*Indian Standard*

**GLOSSARY OF TERMS RELATING TO  
SOWING, PLANTING, FERTILIZER AND  
MANURE APPLICATION EQUIPMENT**

**1. SCOPE**

**1.1** This standard covers the definitions of the terms relating to sowing, planting, fertilizer and manure application equipment.

**FOREWORD**

**0.1** This Indian Standard was adopted by the Indian Standards Institution on 27 April 1981, after the draft finalized by the Soil Working Equipment Sectional Committee had been approved by the Agricultural and Food Products Division Council.

**0.2** With the increasing scope of farm mechanization, a large number of sowing, planting, fertilizer and manure application equipment are being designed, developed, manufactured and used in the country. The need was, therefore, felt for a comprehensive glossary which would provide authentic definitions of the terms used in respect of such equipment. It is hoped that this glossary would serve as a useful reference.
