SYNOPSIS

Doc: MHD 14 (14230) IS/ISO 15195:2018 Laboratory medicine — Requirements for the competence of calibration laboratories using reference measurement procedures ✓

a) Scope:

This document specifies the requirements for competence to carry out reference measurement procedures in laboratory medicine, using the requirements of IS/ISO/IEC 17025:2017 as a normative reference and listing additional requirements for calibration laboratories to perform their tasks adequately.

The relationship between clauses in this document and IS/ISO/IEC 17025:2017 are summarized in Annex A.

Examinations of properties with results reported on a nominal or ordinal scale are not included.

This document is not applicable to medical laboratories.

b) Salient features of content:

This document identifies and describes terms and conditions, general requirements, structural requirements, resource requirements, process requirements, management requirements and Annex A.

c) Type/grades/classes, if any covered in the standard: Nil.
