FORMAT FOR SYNOPSIS OF INDIAN STANDARDS

Number and Title of the Indian Standards:	IS/ISO 22153:2020 - Electric actuators for industrial valves — General requirements
a) Scope:	<p>This document provides basic requirements for electric valve actuators, used for on-off and control valves. It includes guidelines for classification, design, enclosure and corrosion protection, and methods for conformity assessment.</p> <p>Combinations of electric actuators and gearboxes when supplied by the actuator manufacturer are within the scope of this document.</p>
b) Salient features of content:	This standard covers Terms and definitions, Classification-Designation, Design Requirements, Operational equipment and type and production test.
c) Types/grades/classes, if any covered in the standard:	Electric valve actuators are classified as — part-turn actuator; — multi-turn actuator; — linear actuator.
d) Disclaimer (to be automatically provided by the program/software)	--
