

**SYNOPSIS OF IS/ISO 7240-21: 2005 'FIRE DETECTION AND ALARM SYSTEMS
- PART 21: ROUTING EQUIPMENT'**

This standard specifies the requirements, methods of test, and performance criteria for fire-alarm routing (transmitting) equipment and for fault (trouble) warning routing equipment for use in fire detection and fire alarm systems installed in buildings.

This Indian Standard is identical with ISO 7240–21: 2005 'Fire detection and alarm systems – Part 21: Routing Equipment' issued by the International Organization for Standardization (ISO).
