Indian Standard

AGRICULTURAL TRACTORS —TEST PROCEDURES

PART 8 ENGINE AIR CLEANER

1 Scope

This part of ISO 789 specifies test procedures for engine air cleaners fitted to agricultural tractors which are additional to those specified in ISO 5011. Additional tests are necessary because of the special conditions under which engine air cleaners fitted to agricultural tractors must operate.

2 Normative reference

The following standard contains provisions which, through reference in this text, constitute provisions of this part of ISO 789. At the time of publication, the edition indicated was valid. All standards are subject to revision, and parties to agreements based on this part of ISO 789 are encouraged to investigate the possibility of applying the most recent edition of the standard indicated below. Members of IEC and ISO maintain registers of currently valid International Standards.

ISO 5011:1988, *Inlet air cleaning equipment for internal combustion engines and compressors – Performance testing.*
