Bureau of Indian Standards

(Government of India)

Manak Bhawan, 9, Bahadur Shah Zafar Marg,
New Delhi - 110 002

Our Ref: SSD2/ G- 6 / Experts

|| February 2020

To,

The Executive Director
Indian National Science Academy
2, Bahadur Shah Zafar Marg
New Delhi-110 002

Subject: Identification of experts / scientists / educationists in the field of standardization

Dear Madam / Sir

As you are aware, Bureau of Indian Standard (BIS) is the National Standards Body of India involved in developing national standards on products, processes and services which are called as Indian Standards. These standards are formulated through various Sectional Committees comprising of stakeholders from government, academia, consumer organizations, industries, experts, consultants etc. The activity is done through 15 Division Councils representing diverse areas of economy and technology. The list of these Division councils is attached at Annexure 1. Indian Standards are formulated through specialist technical committees (functioning under the Division Councils) namely, Sectional Committees.

2. Standards have been widely recognized as catalyst for technical development, industrial growth, the well-being of the society and more recently for convergence of new and emerging technologies. The Ministry of Commerce and Industry has developed the Indian National Strategy for Standardization (INSS) acknowledging the standards for goods and services critical to the establishment of a robust "Quality Ecosystem" in India. In pursuance of the strategic considerations envisaged in INSS, BIS has brought out a "Standards National Action Plan (SNAP) to achieve the identified goals in standardization.

3. The government of India has also identified 12 Champion Sectors for services as listed at Annexure 2. To give focused attention on Services Sector, a separate Division Council dedicated to services has been created for formulation of standards in these champion sectors.

4. BIS has so far has developed more than 20,000 Indian Standards of which around 10,000 relate to products and others to the test methods, code of practices, services etc. There is, however, an increasing demand for new standards or revision in the existing standards due to the growth and diversification of economic activities within the country. Further, BIS is also a member body of ISO (International Organization for Standardization) and IEC (International Electro-technical Commission) and is actively involved in standards formulation at the international level, which becomes all the more important owing to increased globalization so that the needs and expectations of our country are also met.

5. For developing standards that are comparable to international standards and aligned to the latest development in the relevant fields, it is necessary to associate the best scientific and professional brains in the country working in those fields. Their association with the Sectional Committees will ensure that standards predicated on sound understanding, latest research and thought processes and holistic application of emerging concepts and technologies within and outside the country.

6. I request you, therefore, to share the information on scientific and academic luminaries who have received acclaim in the area indicated in the statement of Annexure-1 & 2. If your organization has a scheme to recognize or award such personalities, the list of awardees since 2000 may also be shared.

7. It may be mentioned that BIS will be happy not only to include them as members of the Section Committees, but also as Mentor for the Sectional Committee, in case of very senior personalities.

8. It will be highly appreciated if information can be shared latest by 20th February 2020.

With regards,

11/2/2020

Yours faithfully,

(D.K. Agarwal)

Deputy Director General (Service Sector)
Bureau of Indian Standards

List of CSIR Labs

SI No.	Name of Institute	Name & Address	Email & Contact Details	Web Address
1.	Advanced Materials and Processes Research Institute (CSIR-AMPRI)	Dr. Avanish Kumar Srivastava, Director, Hoshangabad Road, Near, Habibganj Naka, Bhopal, Madhya Pradesh 462026	director@ampri.res.in , aks@ampri.res.in or 2457105	https://ampri.res.in/
2.	Central Building Research Institute(CSIR-CBRI)	Dr. N. Gopalakrishnan, Director, CBRI, Roorkee – 247 667, Uttrakhand, INDIA	director@cbri.res.in , director@cbriemail.com or +91-1332-272243, 283393	www.cbri.res.in
