Draft Indian Standard

**ELECTRICAL ENERGY STORAGE (EES) SYSTEMS - PART 3 PLANNING AND PERFORMANCE
ASSESSMENT OF ELECTRICAL ENERGY STORAGE SYSTEMS SECTION 1 GENERAL
SPECIFICATION**

(ICS 13.020.30)

**Electrical Energy Storage Systems
Sectional Committee ETD 52**

Last Date of Comments: 24 August 2024

NATIONAL FOREWORD

This draft Indian Standard (Part 3 / Sec 1) which is identical with IEC 62933-3-1: 2018 ‘Electrical energy storage (EES) systems - Part 3 Planning and performance assessment of electrical energy storage systems Section 1 General specification’ issued by the International Electrotechnical Commission (IEC) will be adopted by the Bureau of Indian Standards on the recommendation of the Electrical Energy Storage Systems Sectional Committee and approval of the Electrotechnical Division Council.

The text of the IEC Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words ‘International Standard’ appears referring to this standard, they should be read as ‘Indian Standard’.
- b) Comma (,) has been used as a decimal marker, while in Indian Standards the current practice is to use a point (.) as the decimal marker.

In this adopted standard, reference appears to International Standards for which Indian Standards also exists. The corresponding Indian Standards, which are to be substituted, are listed below along with their degree of equivalence for the editions indicated:

<i>International Standard</i>	<i>Corresponding Indian Standard</i>	<i>Degree of Equivalence</i>
IEC 60721-1, Classification of environmental conditions – Part 1: Environmental parameters and their severities	IS 13736 (Part 1) : 2018, Classification of environmental conditions: Part 1 environmental parameters and their severities (<i>first revision</i>)	Identical With IEC 60721-1: 2002
IEC 62933-1:2018, Electrical energy storage (EES) systems – Part 1: Vocabulary	IS 17067 (Part 1) : 2018, Electrical energy storage systems: Part 1 vocabulary	Identical With IEC 62933-1:2018

IEC 62933-2-1, Electrical energy storage (EES) systems – Part 2-1: Unit parameters and testing methods – General specification	IS 17067 (Part 2/Sec 1) : 2019, Electrical Energy Storage (EES) Systems Part 2 Unit Parameters and Testing Methods Section 1 General specification	Identical With IEC 62933-2-1 : 2017
ISO/IEC 27000, Information technology – Security techniques – Information security management systems – Overview and vocabulary	IS/ISO/IEC 27000 : 2018, Information technology - Security techniques - information: Security management systems - Overview and vocabulary (<i>first revision</i>)	Identical

The technical committee has reviewed the provisions of the following international standards referred in this adopted standard and decided that they are acceptable for use in conjunction with this standard.

<i>International Standard</i>	<i>Title</i>
IEC 62351 (all parts),	Power systems management and associated information exchange – Data and communications security
IEC 62443 (all parts),	Industrial communication networks – Network and system security
IEC TS 62933-5-1,	Electrical energy storage (EES) systems – Part 5-1: Safety considerations for grid-integrated EES systems – General specification

Only English language text has been retained while adopting it in this Indian Standard, and as such the page numbers given here are not the same as in the International Standard.

For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated expressing the result of a test, shall be rounded off in accordance with IS 2: 2022 ‘Rules for rounding off numerical values (*second revision*)’. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

Note: The technical content of the document is not available on website. For details, please refer the corresponding IEC 62933-3-1: 2018 or kindly contact:
