9 April 2024

NATIONAL FOREWORD

(Formal Clause to be added later)

The text of ISO standard is proposed for publication as an Indian Standard without deviations. Certain terminologies and conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words ‘International Standard’ appear referring to this standard, they should be read as ‘Indian Standard’.
- b) Comma (,) has been used as a decimal marker, while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

In this adopted standard, reference appears to certain International Standards for which Indian Standards also exist. The corresponding Indian Standard, which are to be substituted in their respective place, are listed below along with their degree of equivalence for the editions indicated:

<i>International Standard</i>	<i>Corresponding Indian Standard</i>	<i>Degree of Equivalence</i>
ISO 5353:1995	IS 11113 : 1999 / ISO 5353:1995	Identical under dual numbering

Doc: MED 07 (24667) wc
March 2024

<i>International Standard</i>	<i>Corresponding Indian Standard</i>	<i>Degree of Equivalence</i>
Earth-moving machinery, and tractors and machinery for agriculture and forestry — Seat index point	Earth-moving machinery, and tractors and machinery for agriculture and forestry — Seat index point (<i>second revision</i>)	
ISO 9249:2007 Earth-moving machinery — Engine test code — Net power	IS/ISO 9249 : 2007 Earth — Moving machinery - Engine test code — Net power	Identical under single numbering

The technical committee has reviewed the provision of the following International Standard referred in this adopted standard and has decided that it is acceptable for use in conjunction with this standard:

<i>International Standard</i>	<i>Title</i>
ISO 10263-1 : 2009	Earth-moving machinery — Operator enclosure environment — Part 1: Terms and definitions

In reporting the result of a test or analysis made in accordance with this standard, is to be rounded off, it shall be done in accordance with IS 2 : 2022 '*Rules for rounding off numerical values (second revision)*'.

NOTE — The technical content of the document has not been enclosed as these are identical with the corresponding ISO standard. For details, please refer the corresponding ISO 10263-5 : 2009 or kindly contact:
