Draft Indian Standard

METHODS OF SAMPLING AND TEST FOR GLUES, BONE, SKIN/FLESHINGS AND FISH GLUES
(First Revision of IS 11022)

(ICS No. 83.080.01)

Methods of Sampling and Test for
Plastics Sectional Committee, PCD 27

Last date for receipt of
comment is **01 October 2023**

NATIONAL FOREWORD

(Formal clauses to be added later)

This Indian Standard was originally published in 1984. This revision has been undertaken to align the standard with the latest version of ISO 9665 : 1998.

The text of ISO Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words 'International Standard' appear referring to this standard, they should be read as 'Indian Standard'.
- b) Comma (,) has been used as a decimal marker while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

In this adopted standard, reference appears to the following International Standard for which Indian Standard also exists. The corresponding Indian Standard that is to be substituted in its place is listed below along with its degree of equivalence for the edition indicated.

<i>International Standard</i>	<i>Corresponding Indian Standard</i>	<i>Degree of Equivalence</i>
ISO 4788:1980 Laboratory glassware — Graduated measuring cylinders.	IS 878 : 2008 / ISO 4788 : 2005 Laboratory glassware — Graduated measuring cylinders (<i>second revision</i>)	Identical with ISO 4788 : 2005

The technical committee has reviewed the provisions of the following International Standards referred in this adopted standard and has decided that it is acceptable for use in conjunction with this standard:

<i>International Standard</i>	<i>Title</i>
ISO 3105:1994	Glass capillary kinematic viscometers — Specifications and operating instructions.

In reporting the result of a test or analysis made in accordance with this standard, if the final value, observed or calculated, is to be rounded off, it shall be done in accordance with IS 2 : 2022 'Rules for rounding off numerical values (*second revision*)'.

NOTE — The technical content of this document has not been enclosed as this is identical with the corresponding ISO Standard. For details, please refer to ISO 9665 : 1998 or kindly contact:
