Part 5 Determination of total concentration of certain elements in toys

Part 6 Determination of certain phthalate esters in toys and children's products (*second revision under WC*)

Part 7 Requirements and test methods for finger paints

Part 8 Age determination guidelines

Part 9 Certain phthalate esters in toys and children's products

Part 10 Experimental sets for chemistry and related activities (*under WC*)

Part 11 Chemical toys sets other than experimental sets (*under WC*)

The text of ISO Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions and terminologies are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words 'International Standard' appear referring to this standard, they should be read as 'Indian Standard'.
- b) Comma (,) has been used as a decimal marker while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

In reporting the result of a test or analysis made in accordance with this standard, if the final value, observed or calculated, is to be rounded off, it shall be done in accordance with IS 2 : 2022 'Rules for rounding off numerical values (*second revision*)'.
