or used as an Indian Standard*)

Draft Indian Standard

**THERMOPLASTIC ELASTOMERS — NOMENCLATURE AND ABBREVIATED
TERMS**

(*First Revision of IS 17138*)

(ICS 01.040.83; 83.080.20)

Rubber and Rubber Products Sectional Committee,
PCD 13

Last date for comment
09 April 2024

NATIONAL FOREWORD

(*Formal clauses will be added later*)

This standard was first published in 2019. The first revision has been undertaken to align it with the latest version of ISO 18064:2022 in dual numbering system to make pace with latest developments that have taken place at international level.

The text of ISO Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain terminologies and conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words ‘International Standard’ appear referring to this standard, they should be read as ‘Indian Standard’.
- b) Comma (,) has been used as a decimal marker, while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

In this adopted standard, reference appears to certain International Standards for which Indian Standards also exist. The corresponding Indian Standards, which is to be substituted in its respective places, is listed below along with its degree of equivalence for editions indicated:

<i>International Standard</i>	<i>Corresponding Indian Standard</i>	<i>Degree of Equivalence</i>
ISO 1629 Rubber and latices — Nomenclature	IS 6611 : 2019 Symbols for Rubbers and Latices (<i>second revision</i>)	Not Equivalent

The technical committee has reviewed the provisions of the following International Standard referred in this adopted standard and has decided that it is acceptable for use in conjunction with this standard:

<i>International Standard</i>	<i>Title</i>
ISO 1043-1	Plastics — Symbols and abbreviated terms — Part 1: Basic polymers and their special characteristics

NOTE — The technical content of the document is not available on website. For details, please refer the corresponding ISO 18064 : 2022 or kindly contact:
