used as an Indian Standard)*

Draft Indian Standard

**COSMETICS — MICROBIOLOGY — EVALUATION OF THE ANTIMICROBIAL PROTECTION
OF A COSMETIC PRODUCT**

(ICS No. 71.100.70)

Cosmetics Sectional Committee,
PCD 19

Last date for receipt of comment is
27 October 2023

NATIONAL FOREWORD

(Formal clauses will be added later)

The text of ISO Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words 'International Standard' appear referring to this standard, they should be read as 'Indian Standard'.
- b) Comma (,) has been used as a decimal marker while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

The technical committee has reviewed the provisions of the following International Standards referred in this adopted standard and has decided that they are acceptable for use in conjunction with this standard:

<i>International Standard</i>	<i>Corresponding Indian Standard</i>	<i>Degree of Equivalence</i>
ISO 16212	IS 14648 : 2011, Microbiological examination of cosmetics and cosmetic raw materials - Methods of test (Second Revision)	Not Equivalent
ISO 18415		
ISO 21148:2017		
ISO 21149		
ISO 29621		

In reporting the result of a test or analysis made in accordance with this standard, if the final value, observed or calculated, is to be rounded off, it shall be done in accordance with IS 2 : 2022 'Rules for rounding off numerical values (*Second Revision*)'.

NOTE — The technical content of this document has not been enclosed as this is identical with the corresponding ISO Standard.
