Draft Indian Standard

**Tools for pressing — Heel guidings in large
stamping and forming dies**

ICS 25.120.10

Metal Forming Machines Sectional Committee,
PGD 04

Last Date for Comments: **03-08-2024**

NATIONAL FOREWORD

This Indian Standard which is identical with ISO 20929 : 2018 ‘Tools for pressing — Heel guidings in large stamping and forming dies’ issued by the International Organization for Standardization (ISO) will be adopted by the Bureau of Indian Standards on the recommendation of the Metal Forming Machines Sectional Committee and approval of the Production and General Engineering Division Council.

This Standard specifies dimensions for heel guidings in large stamping and forming dies.

The text of ISO standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are however not identical to those used in Indian Standards. Attention is particularly drawn to the following

- a) Wherever the words ‘International Standard’ appear referring to this standard, they should be read as ‘Indian Standard’.
- b) Comma (,) has been used as a decimal marker while in Indian Standards, the current-practice is to use a point (.) as the decimal marker.

NOTE: The technical content of draft standard is not available on website. For details, please refer to ISO 20929 : 2018 or contact:
