Fluid Power Systems Sectional Committee, PGD 36

NATIONAL FOREWORD

This Indian Standard (Third Revision) which is identical with ISO 5598 : 2020 ‘Fluid power systems and components — Vocabulary’ issued by the International Organization for Standardization (ISO) will be adopted by the Bureau of Indian Standards on the recommendation of the Fluid Power Systems Sectional Committee and approval of the Production and General Engineering Division Council.

This standard was originally published in 1982 and subsequently revised in 1992 and 2019. The third revision of this standard has been undertaken to align it with the latest version of ISO 5598. In this revision new vocabularies related to fluid power systems have been added.

The text of ISO Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words ‘International Standard’ appear referring to this standard, they should be read as ‘Indian Standard’.
- b) Comma (,) has been used as a decimal marker while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

NOTE: The technical content of draft standard is not available on website. For details, please refer to ISO 5598 : 2020 or contact:
