**July 2024** 

Shipbuilding Sectional Committee, TED 17

### NATIONAL FOREWORD

This draft Indian Standard which is identical with ISO 23806: 2022 'Ships and marine technology — Cyber safety' issued by International Organization for Standardization (ISO), will be adopted by the Bureau of Indian Standards on the recommendations of Shipbuilding Sectional Committee and after approval of the Transport Engineering Division Council.

The text of ISO standard is proposed for publication as an Indian Standard without deviations. Certain terminologies and conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words 'International Standard' appear referring to this daft standard, they should be read as 'Indian Standard'.
- b) Comma (,) has been used as a decimal marker, while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

Attention is drawn to the possibility that some of the elements of this standard may be the subject of patent rights. The Bureau of Indian Standards shall not be held responsible for identifying any or all such patent rights.

Annex A informative part of this standard.

#### **SCOPE**

This document gives requirements and recommendations for establishing, implementing, maintaining and continually improving a cyber risk assessment system within the context of a company's security management system (SMS).

All the elements for compliance with this document can therefore be traceable within the SMS by direct inclusion or reference.

FOR COMPLETE TEXT OF THE DOCUMENT KINDLY REFER ISO 23806: 2022 or CONTACT:
