CENTRAL MARKS DEPARTMENT-2

Our Ref: CMD-2/16:9873

17 12 2020

Subject: Special provisions for testing facilities in micro scale units in certification of safety of toys

1. This has reference to the above.
2. It is informed that the Competent Authority has decided that licence may be granted to **micro scale units manufacturing toys**, without insisting on them establishing in-house testing facility **under the condition that they shall establish the required in-house testing facilities within one year from the date of grant of licence.**
3. The following undertaking shall be taken from each applicant who seeks to avail this provision, and this shall also be incorporated in the terms of the licence for such units:

I undertake to establish all test facilities required as per the BIS Scheme of Inspection and Testing for Safety of Toys in my manufacturing unit, within one year from date of grant of BIS licence i.e. within DD/MM/YYYY [Date to be mentioned] failing which the licence granted to me will be liable for cancellation and/or suspension by BIS.

4. Further, it is reiterated that this facility is available only for designated micro scale units.
5. These units, shall, however, be required to comply with the levels of control given in the Scheme of Inspection and Testing (SIT) by getting samples tested as per the required frequency from BIS recognized labs. (Subcontracting will be permitted for micro scale units for All Tests applicable, for a period of one year from the date of grant of licence)
6. All Regional/Branch Offices are advised to ensure implementation of the above directions.
