Data Analyst

Intellolabs Pvt. Ltd   Feb 2022--present

- Designed and developed interactive and insightful Power BI dashboards, providing key stakeholders with real-time, actionable insights into business performance and trends.
- Leveraged advanced Power BI features, including DAX expressions, custom visuals, and data modeling, to enhance the overall effectiveness of dashboards.
- Spearheaded the implementation of Python scripting for automated report generation, significantly reducing manual effort and ensuring timely delivery of critical reports.
- Collaborated with cross-functional teams to understand business requirements and translated them into technical specifications for effective dashboard creation and automation.
- Utilized SQL queries to extract and manipulate data from various databases, ensuring data accuracy and integrity for reporting purposes.
- Conducted performance tuning of SQL queries, optimizing data retrieval processes and enhancing overall database efficiency.
- Actively participated in the full lifecycle of data projects, from requirements gathering to implementation and maintenance.
- Demonstrated strong problem-solving skills by troubleshooting and resolving issues related to data sources, transformations, and visualization.
