22.9 Interdisciplinary Dual Degree in Financial Engineering

Students who are facing time table clash with a Departmental Subject for taking Economics (HS20001) in Autumn Semester may register for the same in Spring Semester of 2nd year Dual Degree program.

23. De-registration

- 23.1 The student can be de-registered in a subject of a semester by the concerned teacher on the ground of poor attendance.
- 23.2 If a student does not have a minimum of 80% attendance in a subject, he/she can be de-registered from the subject at the discretion of the subject teacher.
- 23.3 Only one-time de-registration is permissible and no revocation of the deregistered subject is admissible, except on genuine medical grounds.
- 23.4 Email Warning should be given to the students by the subject teacher prior to de-registration.
- 23.5 The de-registration process shall commence after the Mid-semester Examination. However, in case of projects (BTP and MTP for Dual Degree), comprehensive viva voce and Summer Training/Internship, there is no scope for de-registration by the concerned teachers.
- 23.6 The de-registration will stop two weeks before the commencement of the End Semester Examination (Senate Item 316.H.I.C.6).

24. Grading System

- 24.1 As a measure of students' performance a 7-scale grading system using the following letter grades and corresponding grade points per credit, as shown in Table 24.1 will be followed:

Table 24.1

Performance	Letter Grade	Grade point Per Credit
Excellent	EX	10
Very good	A	9
Good	B	8
Fair	C	7
Average	D	6
Pass	P	5
Fail	F	0

In addition, there shall be one grading symbol **X** used to indicate that the student is **Deregistered/Debarred** in that particular subject.

A **Semester Grade Point Average (SGPA)** will be computed for each semester.

The SGPA will be calculated as follows:

$$SGPA = \frac{\sum_{i=1}^n c_i g_i}{\sum_{i=1}^n c_i}$$

where 'n' is the number of subjects **registered and cleared** for the semester, 'C_i' is the number of Credits allotted to a particular subject, and 'g_i' is the grade-points carried by the letter corresponding to the grade awarded to the student for the subject. SGPA will be rounded off to the second place of decimal and recorded as such. The SGPA would indicate the performance of the student in the semester to which it refers.

- 24.2 Starting from the second semester at the end of each semester S, a **Cumulative Grade Point Average (CGPA)** will be computed for every student as follows:

$$CGPA = \frac{\sum_{i=1}^m C_i g_i}{\sum_{i=1}^m C_i}$$

Where 'm' is the total number of subjects the student has **registered and cleared** from the first semester onwards up to and including the semester S, 'C_i' is the number of Credits allotted to a particular subject 's_i' and 'g_i' is the grade-point carried by the letter corresponding to the grade awarded to the student for the subject 's_i'. CGPA will be rounded off to the second place of decimal and recorded as such.

The CGPA would indicate the cumulative performance of the student from the first semester up to the end of the semester to which it refers.

The CGPA, SGPA and the grades obtained in all the subjects in a semester will be communicated to every student at the end of every semester.

For determining the *inter se* merit ranking of a group of students, only the rounded off values of the CGPAs will be used.

- *From the batch of 2014-2015 onwards the calculation of SGPA and CGPA will be based on all the **subjects registered**.*

- 24.3 When a student gets the grade 'F' in any subject during a semester, the SGPA and the CGPA from that semester onwards will be tentatively calculated, taking only 'zero point' for each such 'F' grade. After the 'F' grade(s) has/have been substituted by better grades during a subsequent semester, the SGPA and the CGPA of all the semesters, starting from the earliest semester in which the 'F' grade has been updated, will be recomputed and recorded to take this change of grade into account.
- 24.4 **Conversion of CGPA into percentage Marks:** In case of a specific query by students/employers regarding conversion of CGPA into percentage marks, the following formula will be adopted for **notional conversion of CGPA** into percentage marks. **Formula : % Marks = CGPA*10**

25. Assessment of Performance

There will be continuous assessment of a student's performance throughout the
