URBAN RAIL TRANSIT

ELECTRIC & MANUAL

Electric climbing mode:

Install steering wheel kit. Push the pull rod to activate the electric climbing device. Simulate the experience of driving with both hands on the steering wheel.

Holding down the directional buttons on each side of the steering wheel,

The middle horn button produces sound effects.

Manual climbing mode:

Install hand device. When the vehicle travels to the bottom of the slope, shake the hand device to make the vehicle climb to the top of the slope. There is no need for power in the climbing process. The climbing speed of the vehicle is determined according to the rotation speed of the hand device.
