
IS 407 Brass Tube – Durable, Versatile, and Reliable

Product Overview:

The **IS 407 Brass Tube** is a high-quality brass tube that meets Indian Standard (IS) 407, ensuring excellent performance, durability, and versatility for general-purpose use. Manufactured with precision, these tubes combine the benefits of strength, corrosion resistance, and workability, making them a popular choice for a wide range of applications.

Key Features:

- **Durable and Strong:** Crafted with high-quality brass, these tubes provide excellent strength and a long service life.
- **Corrosion Resistant:** Brass naturally resists rust and corrosion, ensuring performance in various conditions, indoors or outdoors.
- **Easy to Work With:** Perfect for cutting, bending, and machining, making it suitable for both professionals and DIY enthusiasts.
- **Smooth Finish:** Polished surface gives it a clean and attractive look, ideal for functional and decorative applications.

To ensure Better performance and good reliability following tests are conducted

- **Hydraulic test**
- **Pneumatic test**
- **Physical test**
- **Hardness**
- **Tensile test**
- **Bend Test**

Common Applications:

- **Plumbing and Fittings** – Reliable for water, gas, and low-pressure systems.
- **Industrial Use** – Suitable for engineering, fabrication, and heat exchanger systems.
- **DIY Projects** – Perfect for hobbyists, crafting, and creative works.
- **Decorative Purposes** – Adds an elegant touch to furniture, railings, and home

decor projects
