Dear Sir/Madam,

Greetings of the day!

Thank you for organizing useful training cum discussion session on Amendment-1 to IS 15844: Part 2: 2023 SPORTS FOOTWEAR PART -2 PERFORMANCE SPORTS FOOTWEAR.

Please refer below comments as discussed in meeting.

S.No.	Test Name	Clause	Comments
1	Composite Sole and bond performance	3.2, 7.1.2, 7.1.3, 7.1.4	1. Definition of Composite sole is not clear, as per current norms it can cover clause 7.1.2 and 7.1.4. Required as per clause 7.1.3. , So it is confusing to understand. As per amendment 1, Bond requirement can set as per Solid and cellular sole category, because it is hard to achieve 3.5 N/mm value for cellular material in case if material not tear. Recommend to keep bond requirement as below. 1. For Cellular material : Shall not less than 3.0 N/mm and 2.5 N/mm if material tear. for all clauses 7.1.2, 7.1.3, and 7.1.4. (Applicable on bond with Solid material sole also) 2. For Solid material : Shall not less than 3.5 N/mm and 3.0 N/mm if material tear. for all clauses 7.1.2, 7.1.3, and 7.1.4.
2	Pre conditioning	4.3	Time period not mention.
3	Heel Drop	7.1.9	For round off measurement, Please specify.
4	Martindale abrasion	Clause 7.5, Table 6 S.no. ii	In wet condition, mentioned it is not applicable if full in sock used. Concern : Is it applicable for both Wet and Dry case, or only for Wet condition. Please specify.
5	Water absorption & desorption	Clause 7.5, Table 6 S.no. iii	In water absorption mentioned, applicable on non-water permeable in sock, same should be applicable for wet condition. In Water desorption : Applicable for fabric only, should be same for absorption also. Absorption and desorption both have co-relation, So both tests should be clearly specify, incase of applicability, both will require to perform.
6	CF to Perspiration	Clause 7.3, table 4, S. no. iv	Provided test methods are for leather only, Kindly also mention for non-leather material methods e.g. ISO 105 E04.
7	Sole Tear	Clause 7.6, Table 7, S. no. (iv, v, vi, vii)	Please categorized requirement as per cellular and solid material.
8	Chemical requirement	7.12.1	Applicable on skin contact (Touchable part from hand or foot), not with foot contact.

Kind Regards

Yadvendra Sengar

Subject: Invitation for Manak Manthan on WCD Amendment-1 to IS 15844: Part 2: 2023 SPORTS FOOTWEAR PART -2 PERFORMANCE SPORTS FOOTWEAR

Dear Sir/Madam,

Greetings of the day!!!

Bureau of Indian Standards, the National Standards Body of India has been established under the BIS Act, 2016 for harmonious development of the activities of Standardization, Marking and Quality Certification of Goods and for matters connected there with. BIS is working under the aegis of Ministry of Consumer Affairs Food and Public Distribution, Govt. of India.

Manak Manthan- Manak Manthan meetings are held by BIS Branch Offices regularly on monthly basis on the identified new standards as well as important documents related to revision/ amendment of existing standards. Through this approach BIS intends to take the process of standardization closer to the users for encouraging faster adoption and simultaneously taking feedback on anticipated challenges.

Noida Branch Office is conducting a Manak Manthan on **Wide Circulation Drafts Amendment-1 to IS 15844: Part 2: 2023 SPORTS FOOTWEAR PART -2 PERFORMANCE SPORTS FOOTWEAR** at following date and venue:

Date: 28th Dec 2023 (Thursday)

Venue: C-18, Hosiery complex Phase-2 Extensions, Noida, Gautam Buddha Nagar

The timing for the event will be **02:30 PM- 05:30 PM.**

Copy of Draft Amendment No.1 is attached. Please go through them and all your queries, suggestions and other inputs related to Draft Amendment No.1 shall be discussed in the Manak Manthan.

Your good self is requested to please attend the program and provide your valuable inputs.

A line of confirmation will be highly solicited.

Regards,

Aakarsh Dubey
Graduate Engineer
Bureau of Indian Standards
Noida Branch Office
